

# DOP Free Badge Holders and Strap Clips a sound choice for our planet

New

## Hold and protect your ID badge while protecting the environment

Today many organisations concerned with their carbon footprint are seeking products that are pollution free and have a minimal impact on the environment.

If you are looking for an earth-friendly solution for displaying your ID badges, our new DOP-free vinyl badge holders and strap clip are a very sound choice:

- Protect badges against dirt and abrasion
- Increase visibility of ID
- Ideal for meetings, exhibitions, promotions

DOP (DiOctyl Phthalate) is a plasticiser added to plastic to make it flexible. It has been shown to contain toxins harmful to health and the environment.

Our DOP free products do not contain these harmful plasticisers.

DOP free products can be recycled without adding harmful contaminants to the environment.

Earth-friendly, recyclable DOP-free badge holders and strap clips – a sound choice for our planet

Here is your opportunity to contribute to a cleaner environment buy purchasing more earth friendly products
